

Barrel Clamps

Barrel Clamps - Referred to as "Barrel Clamp", this particular hydraulic accessory is utilized on lift trucks to clutch objects which you would like to transfer utilizing the lift truck. Usually, they are utilized so as to handle kegs, paper rolls and barrels, together with a few barrel clamp designs being able to revolve the cargo. For example, the rotate function allows the one operating the forklift to slot in a vertically stored paper inside the horizontal intake of a printing press.
