

Meritor Part

Meritor Parts - Meritor is a premier global dealer which is proudly founded on a one hundred year tradition of service and quality. They specialize in a broad range of modules, integrated systems and components to original equipment makers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's unique energy and thinks that this particular energy contributes to their competitive advantage in the international operations. The business values all their customers and wants to guarantee their success while anticipating their different requirements. Meritor begins with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than 11,200 people, Meritor promotes collaboration and innovation among a team of knowledgeable professionals.

Meritor strongly believes in just hiring future focused people. These top-caliber individuals could quickly adapt to changing surroundings and freely demonstrate the level of performance and commitment required so as to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor offers all their workers various chances for professional and personal growth.

Their Advanced Engineering team is at the forefront of components and system engineering that include drivelines, axles, suspension and braking systems used for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is also responsible for supporting the needs of all their worldwide engineering personnel.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated around the world in 19 countries and in 5 different continents.

The supplier development network is specially situated so as to support new business development. Regional teams are supported by international initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making within each part of the business. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is even included transactional Green Belts who apply Six Sigma tools to business processes and implement lean methods.
